## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-9 and 11-16 are allowed.

Neither Driskill nor any of the other prior art of reference discloses the claimed invention, specifically the distance between the glue dots and glue density. Therefore, the instant process for water proofing a leather material comprising directly pressing on the internal surface of a leather with a semi permeable membrane would not have been obvious, at the time the invention was made, in view of the cited prior art as the reference fails to teach or suggest the distance between the glue dots and glue density as instantly claimed.

### ***Conclusion***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
